

Help new customers find your services...

If you provide reuse, recycling or waste transport services to commercial customers, Planet Ark is offering you the opportunity to connect with potential new customers.

The **BusinessRecycling.com.au** website and hotline lists recycling services around the country so that small to medium enterprises can easily find the services they want, and that you provide.

To register FREE, visit BusinessRecycling.com.au or call the Hotline on 1300 763 768*.

As Foundation Partners of Planet Ark's BusinessRecycling website, the Department of Environment, Climate Change and Water NSW, the Department of Environment and Resource Management QLD, and Pitney Bowes have declared their commitment to helping businesses across Australia drive down waste, increase re-use and recycling and improve resource recovery.

* Hotline: 9am – 5pm Monday – Friday AEDT.

Funded by the NSW Government, the QLD Government, and Pitney Bowes.
