The Packaging Stewardship Forum of the Australian Food and Grocery Council (PSF) in collaboration with the Waste Contractors & Recyclers Association of NSW (WCRA) and the Roads and Transport Directorate of the Institute of Public works Engineers Australia (NSW) is pleased to deliver a series of four workshops on the use of Recovered Crushed Glass (RCG) in Civil Construction. The workshops are being offered at Wetherill Park, Orange, Shoalhaven and Coffs Harbour.

Learning outcomes

- An awareness and understanding on the use of Recovered Crushed Glass (RCG) in civil construction applications
- Relevant environmental and WHS obligations; and
- Product characteristics and specifications

The workshop content will cover issues such as-

- Why use Recovered Crushed Glass?
- Resource Recovery Exemption required (POEO Act)
- Current applications of RCG in NSW and other states
- Materials specifications and characteristics
- WHS regulations and practices related to of RCG as a fine aggregate .
- Cost benefits

Workshop material: Each participant will be provided with a workshop manual for use in the workplace. The manual will contain useful information on the above topics, Material Safety Data Sheets and Material Fact Sheets addressing acceptance criteria, material handling and other relevant information for use of RCG:

Each workshop will include a site tour where RCG has been used or is being processed plus complementary presentation on the use of RCG and/or video of its production
